Carry and Defend

Defensive Shooting Fundamentals

With Bill Dalpe

Patriot Firearms School

ALL responsibly armed Americans how to respond efficiently and effectively during a dynamic critical incident.

Students who complete this course will begin to feel both physically and mentally confident in their shooting skills as we prepare for the most probably scenarios while building a solid foundation of defensive handgun techniques, such as:

- intuitive unsighted fire
- intuitive sighted fire
- using natural kinesthetic alignment
- lateral movement
- emergency reloads
- Dynamic drills
- multiple target engagement

You will be introduced to concepts, terminology, and information that will prepare you to maximize your learning potential as you complete the live fire portion of the programs. Your USCCA Certified DSF Instructor will teach you intuitive defensive skills that work well with what the body does naturally under the stress of a dynamic critical incident.

You will realize your competency levels as you learn to apply skills in context during these intense live fire drills and simulations.

Date: 22 June 2024

Cost: TBD
