## Functional Pistol Application 2

Functional Pistol 2 is a one-day course that will expose the student to advanced shooting drills pushing them outside their comfort zone thereby enhancing their survivability when lethal force is the only option. FP2 will teach the student how to deploy their pistol from various concealment options, compressed/retention shooting positions and exercises that will raise their heart level in order to see how their shooting is affected. FP2 is considered an advanced course and requires a solid foundation of pistol manipulations as well as moderate amount of physical ability.

**21 July, 9AM – 4PM**

Functional Pistol Applications 2 will cover the following:

- Mindset
- Dynamics of Violence
- Fundamental Shooting Stance
- Emergency Reloading
- Integrating Movement for Survival
- Dealing with Multiple Aggressor's
- Malfunction Clearing
- One Handed Shooting; Why/How
- Methods of Concealment: What Works/Doesn't Work
- 4-Count Drawstroke
- Pistol Deployment With & Without Concealment
- Shooting from retention: Why/How?
